

# Kyle Morton for Municipal Council

## District 10: Halifax-Bedford Basin West

- **More Affordable Housing**
- **Improved Transit Options**
- **Community-Focused Policing**
- **Urban Sustainability**
- **Infrastructure Investment**

### **About me**

Hi there! I'm Kyle. I'm a long-time resident of District 10, an avid horse rider, and an irrepressible optimist.

We're certainly going through turbulent times, especially here in Nova Scotia, yet I can't help but feel like we'll come out stronger. Halifax is an amazing city with some of the strongest and kindest people you'll ever meet. Our large and growing immigrant population means that Halifax is a hub of culture and ideas that enrich our lives and our economy. Further, our world-class universities and education make Halifax an excellent destination for students and families, along with businesses. It seems to me that, no matter what happens, we will get through together.

### **But we still have challenges**

Affordable housing is hard to come by, with an average 1% vacancy rate. Transit remains lackluster, especially in the more outer reaches of Halifax, such as my native Clayton Park. There is a lack of trust between our police and our communities, making Halifax less safe than it could be. Our roads and infrastructure are well taken care of in some areas, but run down, decrepit, or simply lacking in others. And the climate crisis is one of the biggest challenges in human history.

**We need to act now, decisively**, to overcome our problems, capitalize on our strengths, and unlock Halifax's great potential. So please, consider voting **Kyle Morton** in October.

Let's do something great, together.
